Errata for

Guidelines for Technical Material, October 2008

August 2014

The following list of errata includes only those changes which are important for the understanding and use of the material. For example, minor corrections to punctuation and spelling are not listed.

If a change applies only to the print edition or the braille edition, the section number is followed by [print] or [braille]. In all other cases, the change affects both print and braille.

Braille page numbers used in this listing refer to the October 2008 version of the Guidelines.

2.8 print page 11, braille page 18
The correct reference is 11.5.7.

2.10 print page 12, braille page 19
In the second paragraph following the list of symbols, replace the first sentence by:
Note that the foot or minute may be shown in print by an apostrophe (') and the inch or second by a nondirectional double quote (").

3.6 [braille] braille page 27
For the first item in the symbols list the dot locator is incorrect.
The correct listing is:
\textless \textendash \textgreater \textless \textendash \textgreater \textless \textendash \textgreater \textless \textendash \textgreater \textless \textendash \textgreater \textless \textendash \textgreater \textless \textendash \textgreater \textless \textendash \textgreater

4.4.1 [braille] braille page 29
The section is misnumbered. It should be 4.1.1.
4.4.1 print page 27, braille page 42
Delete the first sentence of the last paragraph on the print page.
Replace it by:
Refer to Rules of Unified English Braille, Section 16: Line Mode, Guide Dots for symbols to use in line mode.

6.4 print page 33, braille page 50
The third method of brailling the "speed" example should not use the "dis" groupsign because it follows the general fraction open indicator which is not considered the beginning of a word (Rulebook, 10.6.2). The correct form is:
\texttt{sp.Ed .wrdimk5m+e}.

6.5 print page 33, braille page 50
The correct reference is 6.4.

6.5 [braille] braille page 51
The correct form of the final example in the first grouping is:
\texttt{#fsc#a0:0000}.

6.5 [braille] braille page 51
The correct form of the fourth example in the second grouping is:
\texttt{#b/a#b/c}.

6.5 [braille] braille page 52
The correct form of the fifth example in the third grouping is:
\texttt{#b/c/#d}.

7.9 print page 39, braille page 61
In the verbalisation for the first example, replace "i = 1" by "x = 1".

8.1 [print] print page 40
In the third example, replace the letter "x" by a multiplication sign.
9.3.1 print page 43, braille page 67
The correct form of the first example is:

9.3.2 print page 43, braille page 67
The correct form of the second example is:

9.3.3 print page 44, braille page 68
The correct forms of the examples using sin are:

11 print page 50, braille page 77
The correct symbol listing for the ampersand is:

11.2 print page 51, braille page 78
The correct reference is 11.5.7.

[braille] braille page 81/82
Move the page change indicator for print page 54 from location just before 11.5.4 to just before 11.5.5.

11.5.5 print page 54, braille page 82
Insert a cap on "If", the first word of the example.
The correct form of the fourth line of the example is:
11.6 print page 55, braille page 83
The correct form of the example is:
```plaintext
; set r:il nums $::
```

11.7 [braille] braille pages 84 and 85
The correct form of the name of the second Greek letter is \( \varepsilon \).

12.1 print page 57, braille page 87
In number 8 of the definition, replace "next" by "previous".

12.1 print page 58, braille page 89
The correct form of the last example is:
```plaintext
|angle| |;::|::;|::;
```

13.2 print page 61, braille page 93
The correct form of the second example is:
```plaintext
|;::|;
```

The correct form of the third example is:
```plaintext
|;::;|
```

13.3 print page 64, braille page 97
In the verbalisation for the next to last example, the correct reference is 14.3.3.

14.3.3 print page 68, braille page 104
In the verbalisation for the second example, the correct reference is 11.5.3.

15.2 print page 69, braille page 106
The correct form of the third example is:
```plaintext
|;::|::;|;::;|::;
```
15.6 print page 72, braille page 110
The correct form of the third example is:

\[ \text{\textsuperscript{2}p} \]

16 [print] print page 74
Switch the first two print symbols in the second column for the equilibrium arrows, trend to left and trend to right. Braille symbols (first column) and names (third column) are correct.

16.3 [braille] braille page 116
The correct verbalisation for the example is: sub 92 super 238 U

16.5 [braille] braille page 118
Add as a new final example on print page 77:
Pb super "plus plus" plus 2 e equilibrium arrow Pb

16.6 [braille] braille page 119
In the verbalisation for the second example, change the last four lines to:
as follows: two crosses above then moving clockwise a cross above a circle on the right, two crosses below, and a circle below a cross on the left.

16.7 print page 78, braille page 120
Delete the second sentence of the first paragraph and replace it by:
Refer to Rules of Unified English Braille, Section 16: Line Mode, Guide Dots for symbols used to draw lines using braille cells.
